

THE WINNING FORMULA

The Triple Eight Race Engineering Australia B-Double carries a payload worth \$4 million. Without it their V8 Ford Australian touring championship hopes are lost. "Many years ago we almost didn't race because our transporter nearly left the road."

(For Safety Sake – Think Knorr-Bremse and BPW)

1300 651 652

That's when we realised how important that part of our business meant, to our overall winning strategy. "We're all smiles now because we have the Knorr-Bremse EBS roll stability and BPW trailer disc brake technology on-board. "For both our driver's safety and the efforts the team put-in to meet each race day – it's cheap insurance"

Craig Lowndes - Car 888, Team Beta Electrical.
