

NEW RELEASE

Hooked On Originality

Marrel invented the Skip Loader, Tipper Scissors and the Ampliroll Hook-Lift systems which are now available in Australia through the exclusive BPW Transpec national dealer network.

Extended Range of Equipment

Marrel Amplirolls with TELESCOPIC JIBS.

- To suit all vehicles with GWW from 3.5T to 32T.
- Patented tilting frame provides the strongest lifting power.
- Telescopic jib concept gives fabulous flexibility to handle multiple container lengths.
- Fully load tested to 24,000 cycles.
- Highly reliable, long life and low maintenance components.

Marrel Amplirolls with ARTICULATED ARMS

- Enhanced kinematics for increased lifting power.
- Optimised strength to weight ratio.
- Improved operator visibility.

Marrel Amplirolls with ARTICULATED JIBS

- Capable of handling very short containers.
- Jig designed to move large variety of container lengths and in restricted loading areas.
